This Book is brought to you for free and open access by the Yale University Publications at EliScholar – A Digital Platform for Scholarly Publishing at Yale. It has been accepted for inclusion in Yale University Catalogue by an authorized administrator of EliScholar – A Digital Platform for Scholarly Publishing at Yale. For more information, please contact elischolar@yale.edu.

For catalogues and other information, address THE SECRETARY
OF YALE COLLEGE, NEW HAVEN, CONN.

The last edition of the Triennial Catalogue of the Graduates of
the College was published in 1871.

Obituary notices of deceased graduates of the College are pub-
lished annually.

All persons, who can supply information appropriate to the
future editions of the Triennial Catalogue or Obituary Record,
are urgently requested to communicate with the Professor of
Latin, or the Secretary.

FACULTY AND INSTRUCTORS.

✓REV. NOAH PORTER, D.D., LL.D.

PRESIDENT, and *Clark Professor of Moral Philosophy and Metaphysics.*

(7 TR.) 31 Hillhouse av.

Kent Professor of Law.

✓REV. LEONARD BACON, D.D., LL.D.

Lecturer on Church Polity and American Church History.

(1 E. D. H.) 247 Church st.

Chittenden Professor of Divinity, and College Pastor.

ELIAS LOOMIS, LL.D.

Munson Professor of Natural Philosophy and Astronomy.

(236 D.) 141 Church st.

WILLIAM A. NORTON, M.A.

Professor of Civil Engineering.

(34 N. S. H.) 72 Prospect st.

JAMES D. DANA, Ph.D., LL.D.

Silliman Professor of Geology and Mineralogy.

24 Hillhouse av.

REV. GEORGE E. DAY, D.D.

Holmes Professor of the Hebrew Language and Literature and Biblical Theology.

(5 E. D. H.) 125 College st.

REV. SAMUEL HARRIS, D.D., LL.D.

Dwight Professor of Systematic Theology.

(3 E. D. H.) 144 College st.

THOMAS A. THACHER, LL.D.

Professor of the Latin Language and Literature.

155 Crown st.

BENJAMIN SILLIMAN, M.D.

Professor of Chemistry.

34 Hillhouse av.

REV. CHESTER S. LYMAN, M.A.

Sheffield Professor of Astronomy and Physics.

(39 N. S. H.) 88 Trumbull st.

REV. JAMES M. HOPPIN, D.D.

Professor of Homiletics and the Pastoral Charge.

(7 E. D. H.) 79 Sachem st.

STEPHEN G. HUBBARD, M.D.

Professor of Obstetrics and the Diseases of Women and Children.

23 College st.

WILLIAM D. WHITNEY, Ph.D., LL.D.

Professor of Sanskrit and Comparative Philology, and Instructor in Modern Languages.

(205 D.) 246 Church st.

- MOSES C. WHITE, M.D.
Professor of Histology, Pathology, and Microscopy. 104 York st.
- HON. FRANCIS WAYLAND, M.A.
Professor of Mercantile Law and Evidence. (17 Court House.) 91 Whitney av.
- REV. GEORGE P. FISHER, D.D.
Professor of Ecclesiastical History. (9 E. D. H.) 27 Hillhouse av.
- WILLIAM P. TROWBRIDGE, M.A.
Higgin Professor of Dynamical Engineering. (45 N. S. H.) 82 Prospect st.
- REV. TIMOTHY DWIGHT, D.D.
Buckingham Professor of Sacred Literature. (72 W. D. H.) 126 College st.
- CHARLES A. LINDSLEY, M.D.
Professor of Materia Medica and Therapeutics. 132 Olive st.
- HUBERT A. NEWTON, LL.D.
Professor of Mathematics. (183 L.) 135 Elm st.
- DAVID P. SMITH, M.D.
Professor of the Theory and Practice of Medicine.
- GEORGE J. BRUSH, M.A.
Professor of Mineralogy. (3 S. H.) 14 Trumbull st.
- SAMUEL W. JOHNSON, M.A.
Professor of Theoretical and Agricultural Chemistry. (12 S. H.) 54 Trumbull st.
- WILLIAM H. BREWER, M.A.
Norton Professor of Agriculture. (4 S. H.) 246 Orange st.
- FRANCIS BACON, M.D.
Professor of the Principles and Practice of Surgery. 32 High st.
- LEONARD J. SANFORD, M.D.
Professor of Anatomy and Physiology. 126 Crown st.
- HON. WILLIAM C. ROBINSON, M.A.
Professor of Elementary and Criminal Law and the Law of Real Property. (16 Exchange B'ld'g.) 76 Olive st.
- LEWIS R. PACKARD, PH.D.
Hillhouse Professor of the Greek Language and Literature. (121 N.) 233 Church st.
- JOHN F. WEIR, N.A., M.A.
Professor of Painting and Design. (9 Art School.) 130 Bradley st.
- JOHN E. CLARK, M.A.
Professor of Mathematics. (6 S. H.) 45 Clark st.
- CYRUS NORTHROP, LL.B.
Professor of Rhetoric and English Literature. (137 F.) 607 Chapel st.
- DANIEL C. EATON, M.A.
Professor of Botany. 70 Sachem st.

- ARTHUR M. WHEELER, B.A.
Professor of History. 207 D.
- ADDISON VAN NAME, M.A.
Librarian. (LIBRARY.) 121 High st.
- J. WILLARD GIBBS, PH.D.
Professor of Mathematical Physics. 121 High st.
- ARTHUR W. WRIGHT, PH.D.
Professor of Chemistry and Molecular Physics. 224 D.
- THOMAS R. LOUNSBURY, B.A.
Professor of English, and Librarian of the Sheffield Scientific School. (6 S. H.) 22 Lincoln st.
- OTHNIEL C. MARSH, M.A.
Professor of Palæontology, and Curator of the Geological Cabinet. (4 TR.) 9 College st.
- D. CADY EATON, M.A.
Professor of the History of Art. (3 Art School.) 84 Prospect st.
- EUGENE L. RICHARDS, B.A.
Assistant Professor of Mathematics. (86 N. M.) 196 York st.
- FRANCIS A. WALKER, M.A.
Professor of Political Economy and History. (40 N. S. H.) 30 Trumbull st.
- JOHN H. NIEMEYER, M.A.
Professor of Drawing. 8 Art School.
- FRANKLIN B. DEXTER, M.A.
Assistant Librarian, and Registrar. (LIBRARY.) 136 F.
- SIMEON E. BALDWIN, M.A.
Professor of Constitutional Law and the Law of Contracts and Wills. (25 White's Building.) 227 Church st.
- OSCAR D. ALLEN, PH.D.
Professor of Analytical Chemistry and Metallurgy. (13 S. H.) 28 Clark st.
- EDWARD B. COE, B.A.
Street Professor of Modern Languages. 240 D.
- ADDISON E. VERRILL, M.A.
Professor of Zoology and Curator of the Zoological Cabinet. (42 N. S. H.) 148 College st.
- FRANKLIN CARTER, M.A.
Professor of the German Language and Literature. (120 N.) 2 York sq.
- WILLIAM G. SUMNER, B.A.
Professor of Political and Social Science. (155 F.) 140 Edwards st.
- JOHNSON T. PLATT, M.A.
Professor of Pleading and Equity Jurisprudence. (18 Exchange Building.) 128 Bradley st.

- EDWIN H. WILSON, M.A.
Tutor in Latin. 170 F.
- HENRY P. WRIGHT, M.A.
*Assistant Professor of the Latin Language and Literature,
on the Dunham Foundation.* (89 N. M.) 34 Temple st.
- ISBON T. BECKWITH, PH.D.
Tutor in Greek. 70 N. M.
- JAMES K. THACHER, B.A.
Tutor in Physics. 58 White's Building.
- HENRY A. BEERS, B.A.
Tutor in English Literature. (183 L.) 7 University pl.
- M. STUART PHELPS, PH.D.
Tutor in Logic. 21 S.
- RUFUS B. RICHARDSON, B.A.
Tutor in Greek. 5 S.
- SAMUEL R. MORROW, M.A.
Tutor in Mathematics. 153 F.
- EDWARD S. DANA, M.A.
Tutor in Mathematics, and Curator of the Mineralogical Cabinet. 102 N.
- JOSEPH A. GRAVES, B.A.
Tutor in Latin. 58 S. M.
-
- HON. CHARLES J. McCURDY, LL.D.
Lecturer on Life Insurance. Lyme.
- REV. THEODORE D. WOOLSEY, D.D., LL.D.
Lecturer on International Law. 250 Church st.
- REV. JOHN HALL, D.D.
Lyman Beecher Lecturer on Preaching. New York City.
- J. HAMMOND TRUMBULL, LL.D.
Lecturer on the Indian Languages of North America. Hartford.
- MARK BAILEY, M.A.
Instructor in Elocution. (150 F.) 185 Temple st.
- ALBERT S. WHEELER, M.A.
Instructor in German. 710 Chapel st.
- DAVID D. BALDWIN, M.A.
Librarian of the Law School. (19 Court House.) 119 Middletown av.
- JOSEPH T. LOVEWELL, PH.D.
Instructor in Physics. 38 Prospect st.
- WILLIAM L. BRADLEY, M.D.
Demonstrator in Anatomy, 22 College st.

- GUSTAVE J. STOECKEL, MUS.D.
Instructor in Vocal Music. 137 York st.
- FREDERIC H. BETTS, M.A.
Lecturer on Patent Law. New York City.
- FREDERICK R. HONEY.
Instructor in Instrumental Drawing. (53 N. S. H.) 416 Chapel st.
- ABRAM M. SHEW, M.D., Sup't of General Hospital for Insane.
Lecturer on Insanity. Middletown.
- SIDNEY I. SMITH, PH.B.
Instructor in Comparative Anatomy. (42 N. S. H.) 148 College st.
- WILLIAM G. MIXTER, PH.B.
Instructor in Chemistry. 8 S. H.
- OSCAR HARGER, M.A.
Assistant in Palaeontology. (4 TR.) 41 S. M.
- JOSEPH J. SKINNER, C.E.
Instructor in Mathematics. 56 N. S. H.
- AUGUSTUS J. DUBOIS, PH.D. ✓
Assistant in Field Engineering. 328 Howard av.
- MANSFIELD MERRIMAN, C.E.
Assistant in Civil Engineering. 46 N. S. H.
- AUGUST H. EDGREN, PH.D.
Instructor in French. 189 George st.
- HENRY A. HAZEN, M.A.
Assistant in Drawing. (52 N.S.H.) 55 N. S. H.
- GEORGE W. HAWES, PH.B.
Assistant in Mineralogy. (18 S.H.) 14 S. H.
- CHARLES J. MORSE, PH.B.
Assistant in Surveying and Field Engineering. 42 York sq. pl.
- CLAUDIUS V. PENDLETON, PH.B.
Assistant in Mechanical Drawing. (43 N.S.H.) 57 N. S. H.
- SAMUEL T. TYSON.
Assistant in Analytical Chemistry. (20 S. H.) 14 S. H.
- SAMUEL F. CLARK.
Assistant in Zoology. 58 N. S. H.
- RUSSELL H. CHITTENDEN.
Assistant in Physiological Chemistry. (13 S. H.) 23 Humphrey st.

GENERAL STATEMENT.

The departments of instruction in YALE COLLEGE are comprehended under four divisions, as follows :

The Faculty of THEOLOGY,
of LAW,
of MEDICINE,
of PHILOSOPHY AND THE ARTS.

Under the last-named Faculty are included, the COURSES FOR GRADUATE INSTRUCTION, the UNDERGRADUATE ACADEMICAL DEPARTMENT, the UNDERGRADUATE SECTION OF THE SHEFFIELD SCIENTIFIC SCHOOL, and the SCHOOL OF THE FINE ARTS—each having a distinct organization.

In the particular statements which follow, the Department of Philosophy and the Arts is first given, with its subdivisions in the order named, and afterwards the three Professional Departments.

The legal designation of the Corporation is "THE PRESIDENT AND FELLOWS OF YALE COLLEGE IN NEW HAVEN."

DEPARTMENT OF PHILOSOPHY AND THE ARTS.

Instruction for Graduate and Special Students.

Graduates of this and other Colleges, and other persons of liberal education (not less than eighteen years old), are received as students for longer or shorter periods, with or without reference to the attainment of a degree.

An Executive Committee, designated by the Faculty, has a general oversight of the students in this department. The Committee this year is composed of Professors Whitney, Newton, Brush, and Wheeler. They will receive and record the names of applicants for instruction, and judge and approve the courses of study proposed; and information may be obtained from them as to conditions, terms, etc. Students may also make special arrangements with any instructor according to their mutual convenience.

Instruction is given partly by lectures, partly by recitations and by oral and written discussions, partly by directing courses of reading, and partly by work in the laboratories and with instruments.

The terms and vacations correspond with those in the Undergraduate Departments. (See Calendar, p. 4.)

The fee for instruction in the Scientific School is \$150 a year; in the other sections of the Department generally \$100, or more or less, according to the course pursued and the amount of instruction received.

The degree of DOCTOR OF PHILOSOPHY is conferred upon those who, having already taken a Bachelor's degree, implying a course of undergraduate study equivalent to that pursued in the Academical Department, engage as students in this Department for not less than two years in assiduous and successful study. It is not given, upon examination, to those whose studies are pursued elsewhere. The requirements for it will in some cases exact of the student more than two years

of labor; so, especially, wherever the course of undergraduate study has been of less than four years. The candidate must pass a satisfactory final examination, and present a thesis giving evidence of high attainment in the branches of knowledge to which he has attended. A good knowledge of Latin, German, and French will be required in all cases, unless, for some exceptional reason, the candidate be excused by the Faculty. The graduating fee is ten dollars.

The courses of instruction given in the department may be grouped as follows:—

I. *Political Science, History, Philosophy, and English Literature.*

President PORTER will instruct in psychology and philosophy, in the history of philosophy, and in ethics.

Ex-President WOOLSEY will lecture on the principles of international law.

Professor BREWER will instruct in the relations of physical geography to political history.

Professor WHEELER will instruct in American colonial and constitutional history, and in the general history of Europe in the XVIIIth century.

Professor WALKER will instruct in public finance and the statistics of industry.

Professor SUMNER will lecture during the first term on the History and Science of Self-Government. An advanced class in Political Economy (Cairnes) will be formed in January.

Mr. H. A. BEERS will instruct in the history of English literature.

II. *Philology.*

Professor THACHER will give instruction in Latin authors not usually read in College; and, in particular, will go over selected plays of Plautus and Terence, with special reference to early Latin forms, constructions, and metres.

Mr. J. H. TRUMBULL will instruct in the American Indian languages, especially the dialects of the Algonkin family.

Professor WHITNEY will instruct in the first year in the general principles of linguistic science, and in the second year in the comparative philology of the Indo-European languages. He will also teach the Sanskrit language, in a course of study extending through both years.

Professor PACKARD will instruct in special Greek authors and in the history of Greek literature.

Mr. VAN NAME will teach the elements of the Chinese and Japanese languages.

Professor LOUNSBURY will give instruction in the Anglo-Saxon language, and in the early forms and literature of English.

Professor COE will teach the relations of the modern Romanic languages, especially the French, to the Latin, and will give assistance to students of the Old-French language and literature.

Professor CARTER will instruct in the older Germanic languages and literature, including Gothic.

The Hebrew and other Semitic languages may be pursued under Professor DAY of the Theological Department, either in connection with his regular classes or otherwise.

III. *Mathematical and Physical Science.*

For the instruction given to graduate and special students in the Sheffield Scientific School, see pages 60, 61. The courses there specified may be variously combined with those here announced, or the student may occupy himself in either section exclusively, according to his circumstances and plans.

Professor LOOMIS will teach meteorology, with especial reference to the making and reducing of meteorological observations.

Professor DANA will instruct in crystallography.

Professor NEWTON will instruct in the calculus, in analytical statics, and in the dynamics of a particle, in the lunar and planetary theories, and in the higher geometry.

Professor GIBBS will instruct in the laws of vibratory and undulatory motion, with especial reference to light and sound; in the combination of observations by the method of least squares; in the potential function, with its application to the theories of electricity and magnetism; and in capillarity.

Professor A. W. WRIGHT will give instruction in physical manipulation, in the departments of heat, light, and electricity, with practical directions as to the management of apparatus.

IV. *Fine Arts.*

For the instruction given to graduate and special students in the School of the Fine Arts, see pages 68, 69.

UNDERGRADUATE ACADEMICAL DEPARTMENT.

CANDIDATES FOR ADMISSION to the Freshman Class are examined in the following books and subjects:—

Latin Grammar—including Prosody.

Sallust—Jugurthine War; or four books of Cæsar.

Cicero—seven Orations.

Virgil—the Bucolics, Georgics, and first six books of the Æneid.

Arnold's Latin Prose Composition, to the Passive voice (first twelve chapters). [It is suggested to teachers, in addition to the use of the work named, to connect simple exercises in making Latin, either oral or written, with all the Latin studies of their pupils throughout the preparatory course.]

Greek Grammar—including Prosody.

Xenophon—Anabasis, five books.

Homer—Iliad, first two books.

Greek History.

The rules for pronunciation given in Hadley's Grammar are recommended as a guide.

Higher Arithmetic—including the metric system of weights and measures.

Algebra—so much as is included in Loomis's Treatise, up to the chapter on Logarithms.

Euclid—first two books. [The first, third, and fourth books of Davies's Legendre's Elements of Geometry, or of Loomis's Elements of Geometry, may be offered as a substitute for Euclid.]

English Grammar and Geography; a thorough knowledge of which is required.

Each student of the classes hereafter entering College will be required to pass an examination in the elements of either the French or the German language, before entering on the advanced study of the one of those languages which he shall elect to pursue. An opportunity will be given for passing this examination, at the same time with the other examinations for admission; another opportunity will be given at the beginning of the Sophomore year.

In French, the requirements will be, the rules and forms of Part 1 of Otto's Grammar (omitting the exercises), and two chapters of Fénelon's *Télémaque*.

In German, the requirements will be, the paradigms and large type in Whitney's Grammar, and twenty-five pages of Whitney's Reader.

Equivalent amounts of French or German reading from other authors may be offered.

THE REGULAR EXAMINATION FOR ADMISSION is held at Graduates' Hall on the Friday, Saturday, and Monday following Commencement (July 2, 3, 5, 1875): *attendance is required at the beginning of the examination, at 9 A. M. on Friday*; those candidates will be detained until Monday, whose examination cannot, for any reason, be finished earlier. The examination is partly oral and partly written; copies of papers recently given (covering the written portion of the examination) will be sent on application.

A second Examination (for those who cannot attend in July) is held at the beginning of the academic year, on Tuesday and Wednesday (Sept. 14, 15, 1875); candidates for this examination are required to assemble at Graduates' Hall at 9 A. M. on Tuesday.

Persons applying to be examined at other times must first pay to the Treasurer a fee of ten dollars. In general, no examinations for admission to the Freshman Class can be held in advance of the time above specified.

ADVANCED STANDING.—All candidates for advanced standing, *whether from other Colleges or not*, are examined, in addition to the preparatory studies, in those already pursued (see below) by the Class which they propose to enter. In the several languages, for the particular books studied by the Class, equivalent amounts may be offered from other books in the same language.

Bachelors of Arts or of Philosophy of any institution may join the Senior Class *without examination* as candidates for the degree of Doctor of Philosophy; which degree will be conferred on such persons after three years' study. (See p. 46.)

No one can be admitted to the Senior Class after the beginning of the second term.

AGE.—No one can be admitted to the Freshman class till he has completed his fifteenth year, nor to an advanced standing without a corresponding increase of age.

TESTIMONIALS.—Satisfactory testimonials of good moral character are in all cases required; and students from other Colleges must present certificates of dismission in good standing.

BOND.—Every person must give to the Treasurer, on being admitted, a bond, executed by his parent or guardian, for five hundred dollars, as security for the payment of all charges arising under the laws of the College.

Course of Instruction.

THE COURSE OF INSTRUCTION occupies four years. In each year there are three terms or sessions.

The following is a scheme of the studies, or, more correctly, of equivalents which will be accepted from candidates for advanced standing:—

FRESHMAN YEAR.

FIRST TERM.—*Greek*.—Homer's *Odyssey*, begun. *Latin*.—Livy, begun; Arnold's *Latin Composition*. *Mathematics*.—Todhunter's *Euclid*.

SECOND TERM.—*Greek*.—Homer's *Odyssey*, continued through four books; Herodotus, begun; Arnold's *Greek Composition*. *Latin*.—Livy, continued through a hundred pages. *Mathematics*.—Loomis's *Algebra*. *History*.—Liddell's *Rome*. *Botany*.—Lectures.

THIRD TERM.—*Greek*.—Herodotus, continued through half of the first book; Arnold's *Greek Composition*. *Latin*.—Odes of Horace, three books; Arnold's *Latin Composition* (to page 150). *Mathematics*.—Chauvenet's *Geometry*; Loomis's *Trigonometry*. *Rhetoric*.—Recitations and Lectures. *Compositions*.

SOPHOMORE YEAR.

FIRST TERM.—*Greek*.—Six Orations of Demosthenes. *Latin*.—Satires and Epistles of Horace. *Mathematics*.—Loomis's *Trigonometry*; Loomis's *Analytical Geometry*; Loomis's *Conic Sections*. *Rhetoric*.—Lectures on Elocution, with practice. *Declamations*. *Lectures on Composition*. *Compositions*. *Criticism*.

SECOND TERM.—*Greek*.—Prometheus of Æschylus; Xenophon's *Memorabilia*, one book. *Latin*.—Cicero de *Senectute*; *Captivi* of Plautus. *French*.—French Inflection; Fénelon's *Télémaque*, one book. *Mathematics*.—Loomis's *Trigonometry*. *Rhetoric*.—*Declamations*. *Compositions*.

THIRD TERM.—*Greek*.—Antigone of Sophocles. *Latin*.—Satires of Juvenal. *French*.—French Syntax; Fénelon's *Télémaque*, continued through six books. *Mathematics*.—Peck's *Mechanics*. *Rhetoric*.—*Declamations*. *Compositions*.

JUNIOR YEAR.

FIRST TERM.—*Latin*.—The *Adelphi* of Terence, the *Agricola* of Tacitus, and the *Octavius* of Suetonius. *Mathematics*.—(See Elective Studies, page 53.) *Physics*.—Ganot's *Physics*;—*Mechanics*. *Rhetoric*.—Morris and Skeat's *Specimens of Early English*. Craik's *History of English Literature*. *Forensic Disputations*. *Lectures*. *Logic*.—Jevons's *Logic*.

SECOND TERM.—*Greek*.—Plato's *Gorgias*, or two books of Arrian's *Anabasis*. *German*.—German Grammar and Reader. *Mathematics*.—(See Elective Studies, page 53.) *Natural Philosophy*.—Ganot's *Physics*. *Lectures*. *Rhetoric*.—*Forensic Disputations*.

THIRD TERM.—*Astronomy*.—Loomis's *Astronomy*, to Chapter xii. *Physics*.—Recitations and Lectures. *Greek*.—Demosthenes on the Crown, or half a book of Thucydides. *Lectures*. *German*.—(See Elective Studies, page 53.)

SENIOR YEAR.

FIRST TERM—*Mental Philosophy*.—Porter's Elements of Intellectual Science. Lectures. *Political and Social Science*.—Fawcett's Political Economy. Lectures. *Astronomy*.—Loomis's Astronomy, finished. *Rhetoric*.—Compositions. Criticism. *History*.—Lectures. *Chemistry*.—Lectures and Recitations. *German*.—(See Elective Studies, page 53.)

SECOND TERM—*Natural Theology and Evidences of Christianity*.—Lectures. *Moral Philosophy*.—Recitations and Lectures. *Geology*.—Dana's Geology. *Rhetoric*.—Compositions. *History*.—Hallam's Constitutional History. Lectures on English History in XVI. and XVII. centuries. *Political and Social Science*.—Lieber's Civil Liberty. Lectures. *Anatomy and Physiology*.—Lectures.

THIRD TERM—*History of Philosophy*.—Schwegler's History. *Political and Social Science*.—Woolsey's International Law. *Constitutional History*.—De Tocqueville's Democracy in America. Lectures. *Constitution of the United States*.—Lectures. *Language and the Study of Language*.—Lectures.

LECTURES.

FIRST TERM.

SENIOR CLASS—*Intellectual Philosophy*.—The PRESIDENT. *History*.—Professor WHEELER. *Chemistry*.—Professor WRIGHT. *Political Economy*.—Professor SUMNER.

JUNIOR CLASS—*History of English Literature*.—Mr. BEERS.

SOPHOMORE CLASS—*Rhetoric*.—Professor NORTHROP.

FRESHMAN CLASS—*Hygiene*.—Professor SANFORD.

SECOND TERM.

SENIOR CLASS—*Natural Theology and Evidences of Christianity*.—The PRESIDENT. *Moral Philosophy*.—The PRESIDENT. *Anatomy and Physiology*.—Professor SANFORD. *History*.—Professor WHEELER. *Political Philosophy*.—Professor SUMNER.

JUNIOR CLASS—*Natural Philosophy*.—Professor LOOMIS.

FRESHMAN CLASS—*Botany*.—Professor EATON.

THIRD TERM.

SENIOR CLASS—*Language and the Study of Language*.—Professor WHITNEY. *History*.—Professor WHEELER. *Elements of Jurisprudence, and American Constitutional Law*.—Professor BALDWIN.

JUNIOR CLASS—*History of Greek Literature*.—Professor PACKARD. *Physics*.—Professor WRIGHT.

EXERCISES IN DECLAMATION AND COMPOSITION.—The Senior and Junior Classes have exercises in forensic disputation twice a week.

The Senior Class have exercises in English composition twice a week.

The Sophomore Class, during the whole year, and the Freshman Class, during the third term, have exercises in English composition once a week.

The Sophomore Class have regular exercises in elocution; and once a week, during a part of the year, have an exercise in declamation before the Professor of Rhetoric and the members of the Class.

ELECTIVE STUDIES.—Those students who are desirous of pursuing the higher branches of the Mathematics, are allowed to choose the Differential and Integral Calculus, during the first two terms of Junior year, in place of the Greek or the Latin studies of those terms.

During the third term of Junior year, the study of German may be continued, in place of Greek; and during the first term of Senior year, in place of Astronomy.

PUBLIC EXAMINATIONS are held at the close of the first and second terms, on the studies of the term; and, at the close of the year, on all the studies of the year. The annual examinations are conducted wholly in writing, and continue for about two weeks.

VOCAL MUSIC.—Gratuitous instruction in Vocal Music is given during a part of the year (the exercises being open to members of all the Departments of the College), subject, however, to a small charge for fire and lights.

Terms and Vacations.

THE PUBLIC COMMENCEMENT is held on the Thursday after the last Wednesday in June.

The first term for the year 1874-75 begins eleven weeks from Commencement-day and continues fourteen weeks; the second begins on the first Thursday in January and continues thirteen weeks; the third begins ten weeks before Commencement-day. The intervening periods, of eleven, three, and two weeks, are assigned for vacations. (See Calendar, p. 4.) The exercises of each term begin with prayers in the Chapel on Thursday morning.

LEAVE OF ABSENCE.—No student is allowed to be absent, without special leave, except in the vacations.

Public Worship.

PRAYERS are attended in the College Chapel every morning, with reading of the Scriptures and singing, and all the students are required to be present.

PUBLIC WORSHIP is held in the Chapel on Sunday, at which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only on presenting to the President a written request therefor from the parent or guardian.

Gymnasium.

The Gymnasium is designed to provide all the students with opportunities for exercise. For the privileges of the same, including instruction, the sum of four dollars a year is charged to each Academical student. Those who use the bath-room connected with the Gymnasium pay a small fee for tickets.

Expenses.

THE TREASURER'S BILLS are made out three times a year, and are delivered before the close of each term to the students, who are required to present them to their parents or guardians. The bills are payable at the close of the term; if not paid within two weeks after the beginning of the succeeding term, the student is liable to be prohibited from reciting.

The annual charges for tuition and incidentals are \$140.

For the rent and care of a half-room in the College buildings, the average charge is \$35 per year.

OTHER CHARGES.—There are additional charges at graduation, amounting to \$18. If a student occupies a room alone, the charge for rent and care is ordinarily double that stated above.

ABSENCE ON LEAVE.—A student who is absent from College on account of sickness, or for any other cause, and still retains his place in his class, pays full tuition during such absence.

BOARD.—Board is obtained at prices varying from \$4.00 to \$8.00 a week. The average price for the summer of 1874 was about \$6. Board may be obtained in clubs, by those students who wish it at a lower rate than is common in boarding houses.

ROOMS.—There are at present in the College buildings 220 rooms occupied by students, at prices varying (according to location) from \$25 to \$140 per year, not including vacations. Students living out of College are not allowed to room in any building in which a family does not reside, except by special permission of the Faculty.

FURNITURE, BOOKS, ETC.—Students provide for themselves furniture, fuel, lights, and text-books; if books and furniture are sold when the student has no further necessity for them, the expenses incurred by their use will not be great.

NECESSARY EXPENSES.—The following may be considered a near estimate of the necessary annual expenses, for a student occupying a half-room in College, without including apparel, traveling, and board in vacations:—

Treasurer's bill (according to location of room).	from \$160 to \$220	
Board, 37 weeks,	- - - - -	" 150 " 300
Fuel, lights, and washing,	- - - - -	" 35 " 65
Use of text-books and furniture.	- - - - -	" 30 " 65
Total,	- - - - -	\$375 \$650

COLLEGE GUARDIAN.—As a precaution against extravagance, parents at a distance sometimes deposit funds with some one of the Faculty; who, in that case, attends to the pecuniary concerns of the student, settles his bills, corresponds with the parent, and transmits an account of expenditures, for which services he charges a commission.

Beneficiary Funds.

The sum of eight thousand dollars and upwards, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of students who need pecuniary aid, especially of those preparing for the Christian ministry. About eighty thus have their tuition either wholly or in part remitted. Students needing such aid should inform the Senior officer of the Class to which they belong, soon after entering College. Assistance will be *withdrawn* from students who incur serious College censure, or who fail to maintain a reputable scholarship.

THE HARMER FOUNDATION OF SCHOLARSHIPS comprises six scholarships, each yielding one hundred dollars a year, to be given to deserving students of small means.

There are also sixteen other Scholarships, most of them yielding sixty dollars a year, which may be given to such students as shall be selected by the founders or the Faculty.

Students who need to avail themselves of the use of the Benevolent Library are supplied gratuitously with many of the text-books used in the College course.

Fellowships and Scholarships.

THE DOUGLAS FELLOWSHIP, with an income of at least six hundred dollars a year, was founded in 1873 by Mrs. Samuel Miller, of New Haven, and named in memory of her brothers, Rev. Sutherland Douglas (Y. C. 1822) and George H. Douglas (Y. C. 1828). The incumbent, who must be a recent graduate

of the Academical Department, pursuing non-professional studies in New Haven, is elected annually, but may not hold the Fellowship for more than three years.

THE BERKELEY SCHOLARSHIP, yielding about forty-six dollars a year, is awarded to the student in each Senior Class who passes the best examination in the Greek Testament (Pauline Epistles), the first book of Thucydides, the first six books of Homer's Iliad, Cicero's Tusculan Questions, Tacitus (except the Annals), and Horace; provided he remain in New Haven as a graduate, one, two, or three years.

THE CLARK SCHOLARSHIP, yielding one hundred and twenty dollars a year, is awarded to the student in each Senior Class who passes the best examination in the studies of the College course; provided he remain in New Haven one or two years immediately succeeding his graduation, pursuing a course of study (not professional) under the direction of the Faculty.

THE BRISTED SCHOLARSHIP, yielding over one hundred dollars a year, is awarded, whenever there is a vacancy, to the student in the Sophomore or Junior Class who passes the best examination in the Greek and Latin classics and mathematics. The successful candidate receives the annuity (forfeiting one-third in case of non-residence in New Haven) until he would regularly take his second degree.

THE WOOLSEY SCHOLARSHIP, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate receives the annuity, under certain conditions, during the four years of his College course. The student who stands second at this examination receives for one year the income of the HURLBUT SCHOLARSHIP, and the student who stands third, the income for one year of the THIRD FRESHMAN SCHOLARSHIP. The income of each of the two latter Scholarships is sixty dollars.

Premiums.

THE DEFOREST PRIZE MEDAL, of the value of one hundred dollars, is awarded "to that scholar of the Senior Class, who shall write and pronounce an English Oration in the best manner."

THE TOWNSEND PREMIUMS, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

THE SENIOR MATHEMATICAL PRIZES (the first consisting of a gold medal of the value of ten dollars and of ten dollars in money, the second of ten dollars in money) are offered to the Senior Class for the best solutions of problems in both abstract and concrete mathematics.

CLARK PREMIUMS are offered to the Senior Class, for the solution of problems in Practical Astronomy.

THE WINTHROP PRIZES (one of two hundred dollars and one of one hundred dollars) are offered to the Junior Class "for the most thorough acquaintance with the Greek and Latin poets," as shown at an examination during the third term.

COLLEGE PREMIUMS are given in the Sophomore Class for English composition, and for declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

BERKELEY PREMIUMS for Latin Compositions are offered to the Sophomore Class near the beginning of the third term.

THE JOHN A. PORTER PRIZE, of two hundred and fifty dollars, is given at each Commencement for the best Essay, to any person who has been studying for a degree in any department of the University during the whole College year.

Degrees.

BACHELOR OF ARTS.—The degree of Bachelor of Arts is conferred by the Corporation on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates for this degree are required to pay their dues to the Treasurer as early as the Monday before Commencement.

The degree of MASTER OF ARTS is conferred by the Corporation on Bachelors of Arts of this College, of two years' standing and upwards, who shall give to the Academical Faculty evidence of having made satisfactory progress in liberal studies after receiving their first degree.

Such evidence may be furnished, first, by one year's systematic study (not professional) in New Haven, under the direc-

tion and instruction of the Academical Faculty, followed by an examination. Bachelors of Arts of other Colleges are admitted without examination to any of the courses of graduate instruction; and after a course of resident study, may, on a satisfactory examination, be recommended for the second degree.

In the second place, such Bachelors of Arts of this College as may not choose to reside at the College for the prosecution of study, may, at any time not less than three years after graduation, show to the Academical Faculty, by their published writings, or by submitting to special examinations, or by any other satisfactory evidence of a year's liberal study, that they are worthy of recommendation for this degree.

A suitable fee will be charged for examinations.

SHEFFIELD SCIENTIFIC SCHOOL.

THE SHEFFIELD SCIENTIFIC SCHOOL is devoted to instruction and researches in the mathematical, physical, and natural sciences, with reference to the promotion and diffusion of science, and also to the preparation of young men for such pursuits as require especial proficiency in these departments of learning.

The School, begun in 1847, and reorganized upon a more extensive scale in 1860, received in 1864, by the act of the Connecticut Legislature, the national grant for the promotion of scientific education under the Congressional enactment of July, 1862. It thus became in consequence the "College of Agriculture and the Mechanic Arts" for Connecticut.

OFFICERS AND INSTRUCTORS.—In addition to the Governing Board (mentioned on p. 35), on whom devolves the internal management of the School, the following additional instructors are employed during the current year:—

ALBERT S. WHEELER, M.A., German; WILLIAM G. MIXTER, Ph.B., Chemistry; FREDERICK R. HONEY, Drawing; SIDNEY I. SMITH, Ph.B., Comparative Anatomy; JOSEPH J. SKINNER, Ph.B., Mathematics; AUGUST H. EDGREN, Ph.D., French; SAMUEL J. TYSON, Analytical Chemistry; JOSEPH T. LOVEWELL, Ph.D., Physics; GEORGE W. HAWES, Ph.B., Mineralogy; MANSFIELD MERRIMAN, C.E., Civil Engineering; AUGUSTUS J. DUBOIS, Ph.D., Field Engineering; HENRY A. HAZEN, B.A., Drawing; CHARLES J. MORSE, Ph.B., Surveying and Field Engineering; CLAUDIUS V. PENDLETON, Ph.B., Mechanical Drawing; RUSSELL H. CHITTENDEN, Physiological Chemistry; SAMUEL F. CLARK, Zoology.

Instruction is given in Elementary and Free-hand Drawing by Professor NIEMEYER, of the Yale School of the Fine Arts; in Elocution by MARK BAILEY, M.A.

The Board of State Visitors consists of the Governor, Lieutenant-Governor, three senior Senators, and the Secretary of the Board of Education.

The Board of Councilors, invited by the Corporation to advise and assist in the progress of the School, are as follows:—Hon. J. E. ENGLISH, of New Haven; Hon. M. JEWELL, of Hartford; Hon. J. R. HAWLEY, of Hartford; Hon. O. F. WINCHESTER,

of New Haven; JOSEPH E. SHEFFIELD, Esq., of New Haven; Professor J. D. DANA, of New Haven; HENRY FARNAM, Esq., of New Haven; M. DWIGHT COLLIER, M.A., of St. Louis; Hon. WILLIAM E. DODGE, of New York City.

The instruction is intended for two classes of students:—

I.—Graduates of this or of other Colleges, and other persons qualified for advanced or special scientific study.

II.—Undergraduates who desire a training, chiefly mathematical and scientific, in part linguistic and literary, for higher scientific studies, or for various other occupations to which such training is suited.

Instruction for Graduates and Special Students.

Persons who have gone through undergraduate courses of study, here or elsewhere, may avail themselves of the facilities of the School for more special professional training in the physical sciences and their applications, gaining in one, two, or three years the degree of BACHELOR OF PHILOSOPHY, or, in two additional years of Engineering study, that of CIVIL ENGINEER or DYNAMIC ENGINEER.

Or, engaging in studies of a less exclusively practical character, they may become candidates for the degree of DOCTOR OF PHILOSOPHY, under the conditions already stated (see p. 46). The instruction in such cases will be adapted to the particular needs and capacities of each student, and may be combined with that given by the graduate instructors in other departments (see pp. 47, 48). Subjects likely to receive special attention are suggested as follows:—

Professor NORTON will instruct in applied mechanics and in spherical astronomy.

Professor LYMAN, in the use of meridional and other astronomical instruments, and in astronomical spectroscopy.

Professor TROWBRIDGE, in the principles of thermodynamics, and the artificial generation, transfer, and utilization of heat as a source of power.

Professor BRUSH, in the analysis and determination of mineral species, and in descriptive mineralogy.

Professor JOHNSON, in theoretical, analytical, and agricultural chemistry.

Professor BREWER, in agriculture and forest culture, in the use of the microscope, and in physical geography.

Professor CLARK, in definite integrals, differential equations,

analytical mechanics, the theory of numerical approximations, and the method of least squares.

Professor EATON, in structural and systematic botany, including the North American flora and the description of genera and species.

Professor MARSH, in palæontology and comparative osteology.

Professor WALKER, in public finance and in the statistics of industry.

Professor ALLEN, in analytical chemistry, and in metallurgy.

Professor VERRILL and Mr. S. I. SMITH, in zoology and geology.

The same courses of study are open, for a longer or shorter time, to graduate students who do not desire to become candidates for a degree.

The degrees of CIVIL and DYNAMIC ENGINEER are conferred on Bachelors who have taken the first degree in engineering study, and who pursue a higher course for at least two years, sustaining a final examination, and giving evidence of their ability to design important constructions and to make the requisite drawings and calculations.

SPECIAL STUDENTS.—For the benefit of those who, being fully qualified, desire to pursue particular studies without reference to the obtaining of a degree, special or irregular students are received in most of the departments of the School; not, however, in the Select Course, nor in the Freshman Class.

It should be distinctly understood that these opportunities are not offered to persons who are incompetent to go on with regular courses, but are designed to aid those who have received a sufficient preliminary education elsewhere to increase their proficiency in special branches.

Instruction for Undergraduate Students.

TERMS OF ADMISSION.—Candidates must be not less than sixteen years of age, and must bring satisfactory testimonials of moral character from their former instructors or other responsible persons.

For admission to the Freshman Class the student must pass a thorough examination in the following subjects:—

English Grammar—including spelling and composition.

History of the United States.

Geography.

Latin—Six books of Cæsar's Commentaries, or their equivalent, and simple exercises in prose composition.

Arithmetic—including the Metric System.

Algebra—Davies' Bourdon, or Loomis's Treatise, as far as the general theory of equations; or an equivalent.

Geometry—the nine books of Davies' Legendre, or the ten books of Loomis's Elements; or an equivalent.

Plane Trigonometry—the solution of Plane Triangles and the Trigonometrical Formulæ contained in Davies' Legendre, or Loomis's Trigonometry. (In Geometry, in the examinations of 1876, Chauvenet's Geometry, or an equivalent, will be required.)

The examinations for admission take place at North Sheffield Hall, on Friday and Saturday, July 2, 3; and on Tuesday and Wednesday, September 14, 15, 1875. Opportunity for private examination may, in exceptional cases, be given at other times.

Candidates for advanced standing in the undergraduate classes are examined, in addition to the preparatory studies, in those already pursued by the class they propose to enter. No one can be admitted as a candidate for a degree later than at the beginning of the Senior year.

COURSES OF INSTRUCTION, occupying three years, are arranged to suit the requirements of various classes of students. The first year's work is the same for all; during the last two years the instruction is chiefly arranged in special courses.

The special courses most distinctly marked out are the following:—

- (a.) In Chemistry;
- (b.) In Civil Engineering;
- (c.) In Dynamic (or Mechanical) Engineering;
- (d.) In Agriculture;
- (e.) In Natural History;
- (f.) In studies preparatory to Medical Studies;
- (g.) In studies preparatory to Mining and Metallurgy;
- (h.) In Select studies preparatory to other higher studies.

The arrangement of the studies is indicated in the annexed scheme.

Freshman Year.—Introductory to all the Courses.

FIRST TERM.—*German*,—Whitney's Grammar and Reader. *English*,—Hadley's Brief History of the English Language; Exercises in Composition. *Mathematics*,—Plane Analytical Geometry. *Physics*,—Atkinson's Ganot, with experimental lectures. *Chemistry*,—Eliot and Storer's Manual; Laboratory practice. *Elementary Drawing*,—Practical Lessons in the Art School.

SECOND TERM.—*Language, Physics, Chemistry, and Drawing*,—As stated above. *Mathematics*,—Elements of the Theory of Numerical Approximations. Solution of Higher Numerical Equations; Methods of Interpolation. *Physical Geography*,—Lectures.

THIRD TERM.—*German and Physics*,—As stated above. *Mathematics*,—Analytical Geometry in Space; Spherical Trigonometry. *Botany*,—Gray's Lessons. *Polit. Economy*,—Elementary Lectures. *Drawing*,—Orthographic Projection.

For the Junior and Senior years the students select for themselves one of the following courses:—

(a.) In Chemistry.

JUNIOR YEAR.

FIRST TERM.—*Theoretical and Organic Chemistry*,—Lectures. *Qualitative Analysis*,—Fresenius. *Laboratory Practice*. *Blowpipe Analysis*. *German*. *French*.

SECOND TERM.—*Laboratory Practice*,—Qualitative Analysis, continued. Quantitative Analysis, begun. *Mineralogy*,—Blowpipe Analysis and Determination of Species. *Zoology*,—Lectures. *German*. *French*.

THIRD TERM.—*Laboratory Practice*,—Quantitative Analysis, continued. *Mineralogy*,—Lectures. *Zoology*,—Lectures and Excursions. *German*. *French*.

SENIOR YEAR.

FIRST TERM.—*Laboratory Practice*,—Volumetric and Organic Analysis. *Geology*,—Dana's. *Zoology*,—Lectures. Excursions. *French*.

SECOND TERM.—*Laboratory Practice*,—Mineral Analysis and Assaying. *Agricultural Chemistry*,—Recitations and Lectures (optional). *Geology*,—Dana's. *Metallurgy* (optional). *French*. *Zoology*. Lectures.

THIRD TERM.—*Laboratory Practice*. Preparation of Thesis. *Agricultural Chemistry*,—Lectures (optional). *Geology*,—Dana's. *Metallurgy* (optional). *Mineralogy* (optional). *French*. *Zoology*,—Lectures.

(b.) In Civil Engineering.

JUNIOR YEAR.

FIRST TERM.—*Mathematics*,—Differential and Integral Calculus. Descriptive Geometry. *Surveying*,—Field Operations. *Drawing*,—Binns' Orthographic Projections. *German*. *French*.

SECOND TERM.—*Mathematics*,—Integral Calculus. Rational Mechanics. *Drawing*,—Projection of Shadows and Perspective. *German*. *French*.

THIRD TERM.—*Mathematics*. Rational Mechanics. Descriptive Geometry. Warped Surfaces. *Surveying*,—Topographical. *Drawing*,—Topographical. *German*. *French*.

SENIOR YEAR.

FIRST TERM.—*Field Engineering*,—Laying out Curves. Location of line of Railroad, with calculations of Excavation and Embankment. Hencks' Field Book for Railroad Engineers. *Civil Engineering*,—Mahan's. *Stone Cutting*,—with graphical problems. *Geology*,—Dana's. *Mineralogy*,—Blowpipe Analysis and Determinative Mineralogy. *Drawing*,—Architectural and Structural. *French*.

SECOND TERM.—*Civil Engineering*,—Resistance of Materials. Bridges and Roofs. Building Materials. *Astronomy*,—Loomis's Astronomy, with practical problems. *Geology*,—Dynamic. *French*.

THIRD TERM.—*Civil Engineering*,—Bridges and Roofs. Stability of Arches and Walls. *Dynamics*,—Principles of Mechanism. Steam Engine. *Hydraulics*,—Hydraulics and Hydraulic Motors.

(c.) *In Mechanical Engineering.*

JUNIOR YEAR.

Pure and Applied Mathematics.—Differential and Integral Calculus. Rational Mechanics. Descriptive Geometry, Warped Surfaces. Geometry of Machinery. *Drawing*,—Binns' Orthographic Projections. Projection of Shadows and Perspective. *German. French.*

SENIOR YEAR.

Applied Mechanics.—Strength of Materials. Theory of Machines. Theory and Construction of the Steam Engine and other Prime Movers. Mill Work. Examination of Machinery. Mechanical Construction. Use of tools. *Geology*,—Dynamic. *Drawing*,—Drawing from Actual Machines. Designs of Machines. *French.*

(d.) *In Agriculture.*

JUNIOR YEAR.

FIRST TERM.—*Theoretical and Organic Chemistry*,—Lectures. *Experimental and Analytical Chemistry*,—in their Agricultural applications. Laboratory Practice. *Physical Geography. Mineralogy*,—Blowpipe Analysis and Determinative Mineralogy. *English. German. French.*

SECOND TERM.—*Agricultural Chemistry*,—Recitations. *Experimental Chemistry*,—Laboratory Practice. *Physical Geography. Mineralogy.* Lectures. *English. German. French.*

THIRD TERM.—*Agricultural Chemistry*,—Lectures. *Horticulture and Kitchen Gardening*,—Lectures. *Experimental Chemistry*,—Laboratory Practice. *Botany and Zoology*,—with Excursions. *English. German. French.*

SENIOR YEAR.

FIRST TERM.—*Agriculture*,—Cultivation of the Staple Crops of the Northern States. *Agricultural Zoology*,—Origin and Natural History of Domestic Animals. Insects useful and injurious to Vegetation. *Geology*,—Dana's. *English. French. Excursions*,—Agricultural, Botanical, etc.

SECOND TERM.—*Agriculture*,—Stock raising and principles of Breeding. *Geology*,—Dana's. *Human Anatomy and Physiology*,—Lectures. *English. French.*

THIRD TERM.—*Rural Economy*,—History of Agriculture and Sketches of Husbandry in Foreign Countries. Systems of Husbandry. *Geology*,—Dana's. *English.*

(e.) *In Natural History.*

(Either Geology, Mineralogy, Zoology, or Botany may be made the principal study, some attention in each case being directed to the other three branches of Natural History.)

JUNIOR YEAR.

FIRST TERM.—*Chemistry*,—Qualitative Analysis. Laboratory Practice. Recitations. *Mineralogy*,—Blowpipe Analysis and Determinative Mineralogy. *Botany*,—Gray's Text-Book; Use of the Microscope. *German. French.*

SECOND TERM.—*Zoology*,—Laboratory Practice. *Physiology*,—Huxley's. *Botany*,—Lectures; Gray's Text-Book. *Mineralogy*,—Lectures. *Physical Geography. German. French.*

THIRD TERM.—*Zoology*,—Laboratory Practice. Lectures, Excursions (land and marine). *Anatomy of Vertebrates*,—Huxley's. *Botany*,—Practical Exercises, Excursions. *German. French.*

SENIOR YEAR.

FIRST TERM.—*Geology*, Dana's. Excursions. *Zoology*,—Laboratory Practice. Lectures. Excursions. *Botany*,—Herbarium Studies. Excursions. *Linguistics*,—Whitney's Language and the Study of Language. *French.*

SECOND TERM.—*Geology*,—Dana's. *Zoology*,—Laboratory Practice. Excursions. *Botany*,—Herbarium Studies. Botanical Literature. Essays in Descriptive Botany. *Linguistics*,—Whitney's Language and the Study of Language. *French.*

THIRD TERM.—*Geology, Zoology, and Botany*—continued, with Excursions. *Meteorology. French.*

Besides the regular courses of lectures on structural and systematic Zoology and Botany, and on special subjects, students are taught to prepare, arrange, and identify collections, to make dissections, to pursue original investigations, and to describe Genera and Species in the language of science. For these purposes, large collections in Zoology and Palæontology belonging to the College are available, as are also the private botanical collections of Professor Eaton.

(f.) *In Preparation for Medical Studies.*

During the Junior year, the work of this course will be chiefly under the direction of the instructors in Chemistry. Especial attention will be given to qualitative and quantitative analysis, in their physiological and medical bearings; and to the preparation and study of the organic proximate elements. In the Senior year, the work will be chiefly under the direction of the Professors of Zoology and Botany. Attention will be paid in Zoology to comparative anatomy, embryology, the laws of hereditary descent, and human parasites; and in Botany to a general knowledge of structural and physiological Botany, and to medicinal, food-producing, and poisonous plants. The order of studies is as follows:

JUNIOR YEAR.

FIRST TERM.—*Chemistry*,—Qualitative Analysis, Fresenius'. Laboratory Practice. Recitations. *Mineralogy*,—Blowpipe Analysis and Determinative Mineralogy. *German. French.*

SECOND TERM.—*Physiological Chemistry*,—Klein's Handbook. Laboratory Practice. Recitations. *Physiology*,—Huxley's. *German. French.*

THIRD TERM.—*Physiological Chemistry*,—Klein's. Laboratory Practice. Recitations. *Zoology*,—Lectures and Excursions. *Botany*,—Lectures, Practical Exercises and Excursions. *German. French.*

SENIOR YEAR.

FIRST TERM.—*Comparative Anatomy and Physiology*,—Laboratory Practice. *Anatomy of Vertebrates*,—Huxley's. *Botany*,—Practical Exercises, Lectures, and Excursions. *Geology*,—Dana's. *Zoology*,—Lectures and Excursions. *French.*

SECOND TERM.—*Comparative Anatomy and Systematic Zoology*,—Lectures. Laboratory Practice. *Botany*,—Lectures. Laboratory Practice. *Geology*,—Dana's. *French*.

THIRD TERM.—*Comparative Anatomy and Physiology*,—Laboratory Practice. *Zoology*, *Botany* and *Geology*—continued, with Excursions.

(g.) *In Studies Preparatory to Mining and Metallurgy.*

Young men desiring to become Mining Engineers, can pursue the regular course in Civil or Mechanical Engineering, and at its close can spend a fourth year in the study of metallurgical chemistry, mineralogy, etc.

(h.) *In Select Studies Preparatory to other Higher Studies.*

JUNIOR YEAR.

FIRST TERM.—*Mineralogy*,—Blowpipe Analysis and Determinative Mineralogy. *Astronomy*. *Physical Geography*. *English*,—Langland's Vision of Piers Plowman, and Chaucer. *History*,—Freeman's Outlines. *French*. *German*.

SECOND TERM.—*Mineralogy*,—Lectures. *Astronomy*. *Physical Geography*. *English*,—Chaucer, Shakespeare. *History*,—Freeman's Outlines, with Lectures. *German*. *French*.

THIRD TERM.—*Botany and Zoology*,—Lectures and Excursions and Laboratory Practice. *English*,—Shakespeare. *Political Economy*,—Walker's Science of Wealth. *German*. *French*.

SENIOR YEAR.

FIRST TERM.—*Geology*,—Recitations and Excursions. *Botany*,—Lectures, Excursions and Laboratory Practice. *Zoology*,—Lectures and Excursions. *Linguistics*,—Whitney's Language and the Study of Language. *English*,—Shakespeare. *History*,—Constitutional History of the United States. Lectures. *Political Economy*,—Lectures. *French*.

SECOND TERM.—*Geology and Zoology*,—continued. *Linguistics*,—Whitney's Language and the Study of Language. *Political Economy*,—Lectures. *English*,—Shakespeare and Milton. *History*,—Political History of the United States. Lectures. *French*.

THIRD TERM.—*Geology*,—Recitations and Excursions. *Zoology*,—Lectures. *Meteorology*. *English*,—Dryden and Pope. *History*,—Lectures. History of Europe since 1848. *Political Economy*,—Lectures.

Exercises in English Composition are required during the entire course from all the students. The preparation of graduating theses is among the duties of the Senior year.

Lectures on Military Science and Tactics are annually given.

TERMS AND VACATIONS.—The terms and vacations correspond with those of the Academical Department. (See Calendar, p. 4.)

EXPENSES.—The charge for tuition is \$150 per year, payable \$55 at the beginning of the first and of the second terms, and \$40 at the beginning of the third term. The special student of Chemistry has an additional charge of \$70 per annum for chemicals, and use of apparatus. He also supplies himself at his own expense with gas, flasks, crucibles, etc., the cost of which should not exceed \$10 per term. An additional charge of \$5 is annually made to each student for the use of the College Reading Room and Gymnasium.

FEES.—For graduation as BACHELOR OF PHILOSOPHY, including the charges for Triennial Catalogues, Commencement Dinners, etc., \$10; unless the person taking the degree is also an academical graduate, when the fee is but \$5. For CIVIL or DYNAMIC ENGINEER, \$5. For DOCTOR OF PHILOSOPHY, \$10.

Degrees.

BACHELOR OF PHILOSOPHY.—The degree of Bachelor of Philosophy is conferred on those who have completed one of the three-year courses in the SHEFFIELD SCIENTIFIC SCHOOL, and have passed the examination at its close.

CIVIL AND DYNAMIC ENGINEER.—See page 61.

DOCTOR OF PHILOSOPHY.—See page 46.

SCHOOL OF THE FINE ARTS.

THE COUNCIL of this Department consists of the following *ex-officio* members:—the President of the College, the President of the National Academy of Design, the President of the New York Museum of Art, and the Director of the School, who is also the Secretary; together with four regularly appointed Councillors, Mr. HENRY FARNAM, Mr. DONALD G. MITCHELL, Mr. EDWARD E. SALISBURY, and Mr. JOHN D. WHEELER.

THE FACULTY, on whom devolves the internal management of the School, consists of the President of the College, and the Professors, whose names and departments of instruction are as follows:—JOHN F. WEIR, Professor of Painting, and Director of the School; D. CADY EATON, Professor of the History of Art; JOHN H. NIEMEYER, Professor of Drawing. (The chairs of Sculpture and Architecture are unfilled.) FREDERICK R. HONEY, Instructor of Perspective.

The School of the Fine Arts embraces in its object the cultivation and promotion of the Plastic Arts, viz., Painting, Sculpture, and Architecture, both in their artistic and æsthetic aims, through practice and criticism.

The School is open to all who desire to avail themselves of its instructions, without restriction, save as to age and general good character. It affords professional students thorough technical instruction in Drawing and Painting, together with a knowledge of the History and Criticism of Art by means of lectures. In its scope it designs to embrace a similar course in the arts of Architecture and Sculpture, both in practice and criticism, when these chairs of instruction are filled.

THE COURSE, as arranged under the different heads of instruction, is thorough and systematic—in drawing, in oil and water-color painting, in etching, and in geometry and perspective. A full course of lectures, embracing the history, philosophy, and criticism of Art, is also included in the system of instruction provided. These lectures, by different members of the Faculty, are extensively illustrated, by means of the calcium-light, with examples taken directly from the works of ancient, mediæval, and modern art, furnishing the non-professional, as well as the professional student, with that acquaintance with

Art which is so desirable in connection with a university course. The aim of the School is not exclusively a professional one. In connection with the technical instruction afforded the special art-student, it aims to furnish that general acquaintance with Art which is becoming one of the recognized requisites of College education and true culture.

THE COLLECTIONS embrace the "JARVES GALLERY" of Italian art, being, for the most part, original paintings of that School, dating from the 11th to the 17th centuries, and numbering one hundred and twenty pictures; the "TRUMBULL GALLERY," comprising many very valuable miniature portraits of prominent characters of the Revolution, taken from life, and possessing great artistic as well as historic interest; and a continually increasing COLLECTION OF CASTS from the antique, now numbering one hundred pieces of sculpture, including the best examples from the Elgin and Townley marbles, the Louvre, and complete casts of the gates of the Baptistery at Florence.

The Collections are open daily for the use of students, and to the public, during the winter, from 1 to 4 P. M.; and during the summer, when a special loan exhibition is organized, from 9 A. M. to 6 P. M. The proceeds of the exhibitions are applied to the purchase of material adapted to instruction, and to the incidental expenses of the School.

The terms for instruction are \$12 per month, or \$100 for the College year, in advance. Art students have free access to the collections, to all the lectures, and are entitled to such privileges, under the usual restrictions, as are granted to students in other departments of the College.

Students' Season Tickets, at \$2 each, admitting the holders to the Exhibitions and to the Lectures, are furnished to students of all other departments of the College.

The terms and vacations correspond with those of the Academic Department. (See Calendar, p. 4.)

The drawing and painting rooms are open daily for the use of students, from 8 A. M. to 5 P. M.

The Art Building, erected upon the College square by the munificence of the late AUGUSTUS RUSSELL STREET, contains commodious galleries well adapted to the purpose of an Art Museum, and for lectures; drawing, painting, and modeling rooms, designed for the instruction of classes; also library rooms and studios.

THEOLOGICAL DEPARTMENT.

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Lecturer on Church Polity and American Church History, a Professor of Systematic Theology, a Professor of Hebrew Literature and Biblical Theology, a Professor of Homiletics and the Pastoral Charge, a Professor of Ecclesiastical History, and a Professor of Sacred Literature.

CONDITIONS OF ADMISSION.—The conditions of entrance are membership in some evangelical church, or other satisfactory evidence of Christian character, and a liberal education at some College, or such other literary acquisitions as may be considered an equivalent preparation for theological studies. Students of every Christian denomination, in case they are possessed of these qualifications, are admitted.

It is expected that every student will be promptly on the ground at the commencement of the session. Rooms will be assigned in the order of application, but no room will be reserved for any applicant who neglects to appear, beyond one week after the opening of the term.

COURSE OF INSTRUCTION.—The regular course occupies three years, and is arranged in the following order:—

JUNIOR YEAR.

Professor DAY will lecture on the Encyclopedia and Literature of Theology, and give instruction in Hebrew Grammar and Philology. Portions of the historical books of the Old Testament in the original will be carefully read and analyzed, and critical and exegetical dissertations presented by the class on points of special difficulty or importance.

Professor DWIGHT will give instruction in the exegetical study of the Greek New Testament. The course includes, in addition to the regular exegetical exercises, the critical investigation of the Greek text and the study of the subjects connected with the Introduction to the New Testament. Dissertations of a critical and exegetical character will, also, be prepared by the students and discussed in the presence of the class.

Professor HARRIS will lecture on Mental Philosophy with special reference to the study of Theology; also on Natural Theology, the Evidences of Christianity, and the Inspiration of the Scriptures; also, as incidental to these topics, on the various forms of Skepticism.

MIDDLE YEAR.

Professor HARRIS will lecture on Systematic Theology. This course will include a full and systematic investigation of the doctrines of Christianity, and of existing questions and controversies in respect to them. The lectures are accompanied by examinations and free discussions.

Professor FISHER will lecture on General Church History, including the following topics: an historical survey of the Old or Preparatory dispensation in its relation to Christianity; the establishment and spread of Christianity (including Missions and Persecutions); Ecclesiastical Polity (including the rise and rule of the Papacy, and the Reformation); and the history of Christian Life and Worship.

Professor DAY will give instruction in Biblical Theology, with special reference to the progressive stages of Divine revelation, and the doctrinal results of the modern critical study of the Scriptures. He will also lecture on portions of the Hebrew Scriptures, especially the poetical and prophetical books.

Professor DWIGHT will continue to give instruction by lectures and recitations, in the critical study of the New Testament, especially the Pauline Epistles.

Dr. BACON will lecture on American Church History.

SENIOR YEAR.

Professor HOPPIN will lecture on Sacred Rhetoric and Homiletics, and also on Pastoral Theology, including the office, qualifications, pastoral duties, and special work of the ministry; he will also take charge of the practical exercises in Preaching, and in the criticism of the style and delivery of Sermons.

Professor FISHER will lecture on the history of Christian Doctrine and on Symbolical Theology, and students will be aided in pursuing historical investigations for themselves.

Dr. BACON will give a series of lectures on Church polity, with special reference to the polity and discipline of the Congregational Churches.

Professor DWIGHT will lecture on some topics of special interest connected with the different books of the New Testament.

Optional Studies in either Year.

Professor DAY will read, free of charge, with those students who desire to become familiar with the theological literature of Germany and have made some progress in the language, some standard work in German on Christian doctrine, with critical remarks, and references to the ablest works on special topics. The grammatical study of the language may be pursued with the classes in the Sheffield Scientific School.

Professor WHITNEY will give instruction to those who desire it in Sanskrit. Instruction in vocal music is given gratuitously to students who desire it. (See p. 53.)

The following courses of lectures in the Academical Department may be attended, free of charge, provided that they do not interfere with the regular

studies of the Seminary: on *Natural Theology and Moral Philosophy*, by President PORTER; on *Natural Philosophy*, by Professor LOOMIS; on *History*, by Professor WHEELER; on *Political and Social Science*, by Professor SUMNER; on *Anatomy and Physiology*, by Professor SANFORD. Students may also be admitted to the various courses of lectures in the Sheffield Scientific School. Those who intend to become Foreign Missionaries have the further privilege of attending gratuitously the lectures in the Medical Department.

EXERCISES IN PUBLIC SPEAKING.—There will be an exercise for all the classes, in the presence of the Faculty, once in two weeks, in the reading of the Scriptures and hymns, and in the delivery of sermons, or parts of sermons, or addresses. Every alternate week there will be a conference, designed to cultivate the power of *extemporaneous speaking*, in which the students will be called on to present their views on some subject selected by the Faculty. Weekly debates are also held by the students, in societies of their own.

Instruction in Elocution will be given by Mr. BAILEY, the Instructor in the Academical Department.

LICENSE TO PREACH.—The regular time for applying for a license is at the close of the second year's study, before which time members of the Department are not allowed to preach.

PUBLIC WORSHIP.—Prayers are attended every morning in the MARQUAND Chapel, with reading of the Scriptures and singing. It is optional with the student whether to connect himself with the College Church, or with one of the City churches; but whatever may be his decision, it is hoped that he will actively engage, so far as may not be inconsistent with the prosecution of his studies, in some form of City Mission, Sabbath School, or other benevolent labor, for which constant opportunities are offered.

LIBRARIES.—The Reference Library of the School, containing nearly two thousand volumes, in various languages, and established through the liberality of Mr. Henry Trowbridge, of New Haven, is placed in the East Divinity Hall. It is designed to furnish the students with the standard and most recent books in every branch of theological literature and those most frequently called for in the pursuit of their studies. It is open daily for consultation, and thus takes the place for each student of a well selected and extensive private library.

The valuable Library of Church Music, belonging to the late Dr. Lowell Mason, has been recently given to the Department by his family. This Library, which is placed in the west Divinity Hall, and is one of the largest of the kind in the country, will be open for the use of students.

The College Library, to which the students have access without charge, contains over 70,000 volumes, and is open five hours on every secular day for consultation and for the drawing of books.

The library of the College literary Societies, containing about 18,000 volumes in general literature, is accessible to theological students.

PHYSICAL EXERCISE.—The College Gymnasium is open to the students of this Department at a small charge. The harbor of New Haven affords excellent facilities for boating, to those inclined to this mode of exercise.

ROOMS.—The rooms in the two DIVINITY HALLS are provided with carpets, beds, bedding and every necessary article of furniture. They will be assigned to new students in the order of application. A few rooms have two bedrooms attached to them, but, in general, provision is made for each student to room alone. The buildings are warmed throughout by steam, and lighted by gas. Bath-rooms and other conveniences are placed on every floor. The buildings are thoroughly ventilated on an approved system.

EXPENSES AND PECUNIARY AID.—Students have only to make pecuniary provision for about eight months of study annually. In the remaining four months of vacation, from May to September, they have the opportunity of engaging in Home Missionary or other labor, with remuneration for their services.

The expenses for the annual session are \$4 to \$5 a week for board; \$15 to \$28 for fuel and lights; and \$10 a year for care of room and other incidental expenses. There is no charge for instruction, room rent, or use of Libraries.

Students whose circumstances require it, will receive \$100 a year from the income of Scholarships and other funds belonging to the Department. Additional aid to the amount of \$100 annually is afforded by the American Education Society to its beneficiaries. In special cases additional aid towards the expense of board will be given. These means of assistance fully cover all the expenses mentioned above.

The Scholarships belonging to the Department bear respectively the names of James Hillhouse, William Leffingwell, George E. Dunham, Normand Smith, E. E. Salisbury, Thomas R. Trowbridge, Charles Atwater, Richard Borden, Samuel

Holmes, Charles Nichols, Roland Mather, Noah Porter, John DeForest, J. R. Beadle, David Root, Mary Goodman, Orin Fowler, and Edward Bull.

After the close of the second year in May, students have frequent opportunities to receive remuneration for preaching in the neighboring churches.

In general it may be said, that sufficient aid will be provided for every young man who gives promise of usefulness in the ministry, to enable him, in connection with his own efforts, to complete a course of theological study.

COMMENCEMENT OF THE TERM, VACATION, ETC.—The session for 1874-75 began on Thursday, Sept. 10, and will continue till the second Thursday in May, when the public Anniversary is held. The annual examination of the classes, and the meeting of the Alumni, is held in the same week. The next annual term will begin on Thursday, September 16, 1875.

By thus throwing all the vacations into one, the most favorable season of the year is secured for study, while the opportunity is given, in the four months' vacation, to engage in some form of benevolent labor, in connection with the mission efforts of the churches, or in the service of one of the benevolent societies, by which the practical experience required of the pastor, as well as pecuniary compensation, may be obtained. Should any students prefer to spend the vacation in theological reading, the Professors will counsel them in the choice of books.

DEGREE.—The degree of Bachelor of Divinity is conferred on all members of the Department who at the end of the Senior year pass the prescribed examination, and present an approved thesis on some topic in theology.

LAW DEPARTMENT.

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Mercantile Law and Evidence, a Professor of Elementary and Criminal Law and the Law of Real Property, a Professor of Constitutional Law, Contracts, and Wills, and a Professor of Pleading and Equity Jurisprudence. Lectures are also delivered by Hon. CHARLES J. MCCURDY, LL.D., on Life Insurance, Rev. THEODORE D. WOOLSEY, D.D., LL.D., on International Law, Rev. LEONARD BACON, D.D., LL.D., on Ecclesiastical Law, Professor HOPPIN on Forensic Composition, Professor WAYLAND on English Constitutional Law and History, ———, on Medical Jurisprudence, MARK BAILEY, M.A., on Forensic Elocution, Professor BALDWIN on Roman Law and Comparative Jurisprudence, and FREDERIC H. BETTS, M.A., on Patent Law.

TERMS AND VACATIONS.—There are two Terms in each year; the Fall Term, beginning on the same day with the first Academical Term (Sept. 10, 1874) and closing on the Wednesday before Christmas (Dec. 23, 1874); and the Spring Term, beginning on the second Wednesday of February (Febr. 10, 1875), and closing at Commencement (July 1, 1875), with a recess of one week, beginning Thursday, April 15.

COURSE OF INSTRUCTION.—The students are divided into two Classes, Senior and Junior, for each of which a special course of study is provided. On each day of the week, except Wednesdays and Saturdays, both Classes recite from standard text-books, the recitations being accompanied with oral explanations, or prefaced by a short lecture. They are also frequently referred to the leading cases on the subject of the recitation, and required to be prepared to be questioned upon them during the next recitation. Wednesdays and Saturdays are devoted exclusively to lectures and moot courts. In the moot courts the students, acting as counsel in the argument of cases, are required to draw the necessary pleadings in the common law form.

Members of either Class can attend any of the lectures of the Professors in the other Departments of the College, when-

ever it may be compatible with their other engagements, and, in most cases, without any extra charge. They can also attend one or more of the special courses of graduate instruction on payment of a moderate fee. These include the study of Political Science and Economy with Prof. SUMNER and Prof. WALKER, History with Prof. WHEELER, and Ethics with President PORTER.

The curriculum of study is as follows:—

JUNIOR YEAR.

FALL TERM.—Recitations: Elementary Law, and Torts, Prof. Robinson. Lectures: Nature and History of American Law, Prof. Baldwin; History of English Municipal Law, Prof. Platt; Forensic Elocution, Mr. Bailey; Methods of Study, President Porter.

SPRING TERM.—Recitations: Contracts, Prof. Baldwin; Mercantile Law, and Evidence, Prof. Wayland; Pleading, Prof. Platt. Lectures: Life Insurance, Judge McCurdy; Forensic Composition, Prof. Hoppin; Wills, Prof. Baldwin; English Constitutional Law, Prof. Wayland; Medical Jurisprudence.

SENIOR YEAR.

FALL TERM.—Recitations: Equity, Prof. Platt; Contracts, Prof. Baldwin; Mercantile Law, Prof. Wayland. Lectures: International Law, President Woolsey; Comparative Jurisprudence, and Roman Law, Prof. Baldwin.

SPRING TERM.—Recitations: Contracts, Prof. Baldwin; Mercantile Law, Prof. Wayland; Real Property, Prof. Robinson. Lectures: American Constitutional Law, Prof. Baldwin; Ecclesiastical Law, Dr. Bacon; Political Economy, Prof. Wayland; Patent Law, Mr. Betts.

Professor Robinson also gives instruction in Logic and Mental Philosophy to such members of either Class as may desire.

A course of study is also provided for those who do not intend to engage in the practice of the Law, but wish to obtain a knowledge of its principles to complete their education, or with reference to mercantile pursuits.

The principal text-books used are, in Junior year, Blackstone's Commentaries, Addison on Torts (abridged), Parsons on Contracts, Gould on Pleading, and Greenleaf on Evidence, vol. I.; in Senior year, Parsons on Contracts, Smith's Manual of Equity Jurisprudence, and Williams on Real Property. For those who take Mental Philosophy as an optional study, Hill's Elements is used.

Students are also recommended to read during their course the following works in connection with their regular exercises: Smith's Mercantile Law, Smith's Leading Cases, Washburn on Real Property, Kent's Commentaries, Maine's Ancient Law, Hadley's Roman Law, Stephen on Pleading, Dickey on Parties, and Cooley on Constitutional Limitations.

At the close of the Spring Term, each Class is subjected to a written examination on the studies of the preceding year.

Since the re-organization of the School in 1870, it has been the aim of the Faculty to make the course of legal education furnished at Yale College

complete and thorough; not confining it to such instruction as may suffice to qualify the students to become successful practising lawyers, but making it cover whatever contributes to make Law a science, and a liberal and liberalizing profession, worthy the pursuit of an educated man.

The study of public law, comparative jurisprudence, style in composition, constitutional history, and political science, is therefore made more prominent than it has ever been before at an American Law School, or than it can be at any school where the term of study is less extended, or where—from its want of connection with a University—the staff of instructors must be less numerous.

TERMS OF ADMISSION.—Applicants for admission must be at least eighteen years of age. They are not required to pass any preliminary examination for admission to the Junior Class. To entitle a person to admission to advanced standing as a member of the Senior Class, he must be at least nineteen years of age; must have studied law under a competent instructor elsewhere for at least one year; and must pass such an examination as is required from those entering the Senior year in regular course.

Applicants for admission to advanced standing may either attend the regular annual Junior examination, during the week preceding Commencement, or pass a special examination beginning upon the first Saturday after the opening of the Fall Term. They must be prepared to be questioned upon Kent's Commentaries, lectures first to nine inclusive, fourteen to eighteen inclusive, and sixty, sixty-two, and sixty-eight; Parsons on Contracts, subjects of bailments, life insurance, agents, gifts, capacity to contract, consideration and assent, sales, warranty, hiring, infancy, and interest; Blackstone's Commentaries, first three books; Gould on Pleading; and Greenleaf on Evidence, vol. I.

LIBRARIES.—The special Library of the Department, which has a permanent endowment for its support (the English Fund),* contains between seven and eight thousand volumes, comprising a complete collection of the English, American and Irish Reports of judicial decisions, and an extensive collection of text-books, and works on jurisprudence and political history and philosophy. The consulting room is also kept supplied with the leading legal periodicals. It is open daily, during term-time, from 8 A.M. to 12.45 P.M., and from 2 to 5.45 P.M. (with the exception of Saturday afternoon): during vacations, it is not opened until 9 A.M.

* Established by Hon. James E. English, M.A., in 1873.

The students can also draw books from the general University libraries, without charge.

PRIZES.—The TOWNSEND Prize,* of one hundred dollars, will be annually awarded to that member of the Senior Class who shall write and pronounce the best oration or thesis at his graduation, at the public anniversary exercises of the Department, which take place on the day before Commencement.

The JEWELL Prizes,† each of fifty dollars, will be annually awarded as follows: one prize to that member of the Senior Class who receives the highest marks at the final examination of his class at their graduation; one prize to that member of the Senior Class who shall write the best dissertation on a given legal topic; and one prize to that member of the Junior Class who shall write the best dissertation on a given legal topic.

The CIVIL LAW Prize, of thirty dollars, will be awarded for the best dissertation on a given topic connected with the Roman Law.

The EDWARDS Prize,‡ of fifty dollars, will be awarded for the best dissertation on a given topic connected with American Constitutional Law.

FACILITIES FOR OBSERVING PRACTICE.—The apartments of the Law School occupy the third floor of the large Court House building, fronting the Green, where the Supreme Court of Connecticut holds two Terms annually, and the Superior Court and the Court of Common Pleas (the principal *nisi prius* Courts of the State) are in session during the greater part of the year. A City Court of both civil and criminal jurisdiction sits daily in the next building. One Term of the U. S. Circuit Court, and two of the U. S. District Court, are also held annually in New Haven.

The apartments comprise a lecture-room, accommodating two hundred students, a large room for moot courts, a smaller one for the use of law clubs, a library hall, an office for the Dean of the Faculty, and other conveniences.

DEGREE.—The degree of Bachelor of Laws will be conferred (upon examination, as above mentioned) as follows:—

1st. Upon Attorneys at Law, who have been members of this Department for one year after their admission to the Bar.

* Established by Hon. James M. Townsend, in 1874.

† Established by Hon. Marshall Jewell, M.A., in 1871.

‡ Established by E. Jay Edwards, B.A., LL.B., in 1873.

2d. Upon students who have been members of this Department for four terms.

3d. Upon persons who have received the degree of Bachelor or Doctor in any of the Arts or Sciences from any incorporated College or University, and have subsequently been members of this Department for eighteen months, or for three terms.

4th. Upon students who may have been admitted to advanced standing as members of the Senior Class, and have remained in that Class for one year or two terms.

Six months' study in the Law School of any other College or University, in the case of College graduates, or one year's study at such a Law School in other cases, will be deemed equivalent to attendance during the same time in this Department.

Graduates of the Department receiving this degree are admitted to the Connecticut Bar without further examination.

By the rules adopted by the Court of Appeals of New York, a year's attendance at the Yale Law School is counted the same as a similar period spent in the office of an attorney of that Court in New York.

EXPENSES.—The fees for tuition and use of library are \$45 for the Fall Term, and \$55 for the Spring Term, or \$90 for the entire annual session; to be paid to the Treasurer of the College in advance, or secured by a bond satisfactory to him: where payment is not made in advance, interest will be added. The diploma fee is \$5, and the Court fees for admission to the Bar are about \$5.

Board and lodging can be obtained in New Haven at prices ranging from \$6 a week upwards.

MEDICAL DEPARTMENT.

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Chemistry, a Professor of Obstetrics and the Diseases of Women and Children, a Professor of Materia Medica and Therapeutics, a Professor of Histology, Pathology, and Microscopy, a Professor of the Theory and Practice of Medicine, a Professor of Surgery, a Professor of General and Special Anatomy and Physiology, and a Lecturer on Insanity. The course of study is divided into two Terms in each year, a Winter Term and a Spring Term.

The instruction in the Winter Term is conducted by means of Public Lectures, with daily examinations, illustrated by Hospital Instruction, Medical and Surgical Clinics, with abundant facilities for Anatomical Dissections.

In the Spring Term, instruction is given by recitations and lectures. In this Term the students are classified, so that those who are just entering on the study are taught during their *first* year only the more elementary branches; while the studies of the *second* year include the more practical branches. Provision is made for students attending a *third* year, to review the studies of the entire course, with the addition of such collateral branches and advanced courses of reading as the necessities or attainments of individual pupils may require. Two or more recitations are held daily.

While the studies of each of these terms are independent and so far complete in their parts that they may be pursued separately with profit, yet they are designed to be so related to each other, that together they make a full and rounded curriculum of proportional study. In no way can the student more easily and naturally acquire a clear and comprehensive knowledge of the medical sciences in their present advanced position, than by taking these courses in connection, and pursuing his studies at the College for the entire period of three years.

The Winter Term for 1874-5, being the *Sixty-second Annual Course of Lectures*, begins October 15, and closes February 11. The Spring Term will begin March 4, and continue to the Annual Commencement, July 1.

A SURGICAL CLINIC is held at the College at 12 M., every

Wednesday in the year, and a Medical Clinic at 3 P. M., every Friday. Clinical instruction is also given at the State Hospital. The recently completed Hospital buildings have largely increased the facilities for Clinical instruction.

THE COLLEGE BUILDING is new and commodious, provided with every convenience, and within a short distance of the State Hospital.

DISSECTING ROOMS.—The spacious and well-appointed Dissecting Rooms are amply supplied with anatomical material at a reasonable charge, under the personal direction of the Demonstrator.

MICROSCOPY, HISTOLOGY, AND PATHOLOGY are illustrated by a sufficient number of compound microscopes and a large collection of the best preparations. It is believed that no institution in this country furnishes the student greater facilities for acquiring exact knowledge in this department.

CHEMISTRY.—The chemical instruction in each term is intended to supplement that given in the other. In the Winter Term, lectures, fully illustrated by experiments, are given upon General Chemistry during the first half of the term; and upon organic and Physiological Chemistry (including the Chemistry of the urine), and Toxicology during the second half.

In the Spring Term, Theoretical Chemistry is taught by recitation, and Practical Chemistry by Laboratory work. The Junior Class work in Elementary Qualitative Analysis; the Middle Class students in advanced Analysis, including the examination of drugs, the urine, calculi, etc. These exercises consist of two hours' daily work. The Senior Class are taught to make original researches in Physiological Chemistry.

THE MUSEUM contains a large collection of natural and morbid specimens, as well as of casts, models and plates, and is, together with the collections in Natural History, the Mineralogical Cabinet, Cabinet of Materia Medica and Libraries of the University, and the Library of the Medical College, open for the use of students.

PREPARATORY EDUCATION.—The Legislature of Connecticut, recognizing the principle that a regular collegiate education forms the proper basis for the study of medicine, has provided, in the Charter of the College, that a difference of one year in the period of study required for a degree, shall be allowed in favor of those who are graduates of Colleges, over those who

begin their professional studies without the advantages of a thorough course of preparatory study and mental discipline.

REQUIREMENTS FOR GRADUATION.—The candidate for a degree must deposit with the Dean, two weeks before the examination, a Thesis, written by himself, upon some medical subject, together with satisfactory certificates from a respectable and regular practitioner of medicine that he is twenty-one years of age, possesses a good moral character, and has studied medicine under his direction for two years, if he is a graduate of a College, and three years if he is not. He must also have attended two full courses of public lectures, at least one of which must have been in this Institution.* The Committee of Examination consists of the Faculty, and an equal number of the members of the Connecticut Medical Society, appointed by the President and Fellows of the same; and the President of the Society is *ex-officio* President of the Committee.

Two Examinations for Degrees are held annually; one at the close of the Winter Term, and the other on the Monday before Commencement, at the close of the Spring Term.

TUITION FEES, ALWAYS REQUIRED IN ADVANCE.

Matriculation Fee, paid but once, on entering College, -	\$ 5.00
Winter Term, Lecture Fees,† - - - - -	60.00
For the Spring Term, - - - - -	60.00
Contingent Expenses of Laboratory, Spring Term, - - -	10.00
Demonstrator's Ticket, paid once a year by those who dissect, -	5.00
Graduation Fee, - - - - -	25.00

One Hundred Dollars, in one payment, at the beginning of either term, pays for tuition for the ensuing year.

In the Winter Term students may take the whole or any part of the Lectures at their option; in the latter case the fees are \$10 for each ticket. (After the present course, \$15 for each ticket.)

Those who have attended two full courses of Lectures in this Institution, are entitled to admission to the Lectures of any future Winter Term gratis. Those who have attended one full course in this Institution, and a full course in a similar Medical College, are admitted to a full course of Lectures on the payment of \$5 for incidental expenses. Those who have attended two full courses in any other accredited College, may receive all the tickets for the Winter Term, including Matriculation, for \$30.

* The Spring Term is counted as a part of the time required for Medical Study; but it does not count as one of the courses of Public Lectures required for Graduation.

† After the present year, \$105.

LIBRARY AND CABINET.

THE COLLEGE LIBRARY numbers about 70,000 volumes, besides several thousand unbound pamphlets. It is designed for the use of the College officers, resident graduates, and the students of the various Departments. Other persons may have the privilege of consulting the Library and drawing books, by permission of the Library Committee. The Library is open daily in term-time from 10 A. M. to 1 P. M., and from 3 to 5 P. M.; or, during the winter months, from 10 A. M. to 1 P. M., and from 2½ to 4½ P. M.

In the same building is the LINONIAN AND BROTHERS LIBRARY, designed primarily for the use of the undergraduate students, and containing about 18,000 volumes. This library is open daily, from 1½ to 3 P. M.

The Theological, Law, Medical, and Scientific Schools have each a special Library, accessible to the students of those schools.

The Library of the AMERICAN ORIENTAL SOCIETY, numbering about 2,500 printed books and manuscripts, is kept in the College Library building.

SUMMARY.

College Library (exclusive of pamphlets) about -	70,000 vols.
Linonian and Brothers Library, about - - - - -	18,000 "
Libraries of the Professional Schools, about - - - - -	17,000 "
Total, - - - - -	105,000

THE COLLEGE CABINET embraces an extensive and valuable collection of minerals, systematically arranged; a collection of fossils, arranged according to their geological succession, besides large collections not arranged for exhibition; and a valuable Zoological collection, of which only a small part can at present be exhibited, for lack of room.

The exhibition hall is free to students and the public. The key is at the Treasurer's Office, 5 Treasury Building.

APPOINTMENTS FOR COMMENCEMENT. CLASS OF 1874.

 DEFOREST Medal.—Class of 1874—James M. Townsend.
 TOWNSEND Premiums for English Composition.—Class of 1874—Edward L. Curtis, James C. Sellers, Henry B. B. Stapler, Alfred B. Thacher, Arthur D. Whittemore.
 SENIOR Mathematical Prizes.—Class of 1874—1st Prize, Alfred B. Thacher; 2d Prize, William Kelly.
 CLARK Premium for Solution of Astronomical Problems.—Class of 1874—1st Prize, William Kelly.
 WINTHROP Prizes.—Class of 1875—1st Prize, Joseph A. Griffin; 2d Prize, Henry Blodget.

COLLEGE PREMIUMS FOR ENGLISH COMPOSITION.

Class of 1874.

1st Prizes.

Edward D. Robbins,
 Owen F. Aldis,
 Ansley Wilcox,
 Alfred B. Thacher,
 Edward L. Curtis,
 Henry B. B. Stapler, }
 James M. Townsend, }
 George F. Doughty, }
 William Hedges. }

2d Prizes.

Wayland Spaulding,
 Russell Walden,
 John B. Whiting,
 Arthur D. Whittemore,
 Henry W. Farnam,
 William Foster,
 David A. Kennedy, }
 John Leal. }

Class of 1876—1st Term.

1st Prizes.

Otto T. Bannard,
 Elmer P. Howe,
 John Kendrick,
 Edwin D. Worcester.

2d Prizes.

Frank A. Gaylord,
 Arthur T. Hadley,
 William W. Hyde,
 David Trumbull.

3d Prizes.

Elisha S. Bottom,
 James B. Dill,
 Philip G. Russell,
 George L. Sterling.

Class of 1876—2d Term.

1st Prizes.

John B. Gleason,
 Arthur T. Hadley,
 Elmer P. Howe,
 Joseph H. Marvin.

2d Prizes.

Frank A. Gaylord,
 William W. Hyde,
 Leveritt H. Sage,
 Rufus B. Smith.

3d Prizes.

Theodore A. Bingham,
 George E. Bushnell,
 George E. Coney,
 Edwin D. Worcester.

JUNIOR EXHIBITION PREMIUMS.—CLASS OF 1875.

1st Prize, Carl T. Chester, }
 Henry S. Gulliver. }

2d Prizes, Samuel R. Betts, Eugene Bouton, Moses S. Gordon, Charles L. Noyes, Lewis F. Reid, Charles T. Russ, Charles Tillinghast, Robert D. Townsend.

PREMIUMS FOR DECLAMATION.—CLASS OF 1876.

1st Prize, Stephen D. Harrison; 2d Prize, Elisha S. Bottom; 3d Prize, William A. Durrie.

PREMIUMS FOR SOLUTION OF MATHEMATICAL PROBLEMS.

Class of 1876.—1st Prize, Arthur T. Hadley; 2d Prize, Louis W. Maxson; 3d Prize, John Kendrick.

Class of 1877.—1st Prize, John S. Thacher; 2d Prizes, Charles C. Camp, Joseph G. Pyle; 3d Prizes, Henry M. Rood, Henry T. Thomas, Samuel M. Waln.

BERKELEY PRIZES FOR EXCELLENCE IN WRITING LATIN.

Class of 1877.—1st Prizes, Charles C. Camp, Cleaveland Forbes, Alpheus C. Hodges, John S. Thacher, George H. Thomas, Henry T. Thomas, William P. Williams; 2d Prizes, Poultney Bigelow, Willis A. Briscoe, Gustavus Eliot, Arthur H. Gulliver, Charles S. Miller, Joseph G. Pyle, Morris S. Shipley.

SHEFFIELD SCIENTIFIC SCHOOL.

CLASS OF 1874.

FOR EXCELLENCE IN GERMAN, Henry Hun; with honorable mention of Eugene E. Osborn.

FOR EXCELLENCE IN FRENCH, Henry Hun.

FOR EXCELLENCE IN CIVIL ENGINEERING, Charles J. Morse.

CLASS OF 1875.

FOR EXCELLENCE IN THE MATHEMATICS OF JUNIOR YEAR, Charles Hildebrand, and William F. Pratt, equal.

FOR EXCELLENCE IN CHEMISTRY, Frederic N. Pease.

FOR EXCELLENCE IN MINERALOGY, Frederic N. Pease.

CLASS OF 1876.

FOR EXCELLENCE IN ALL THE STUDIES OF FRESHMAN YEAR, Hiram A. Miller.

FOR EXCELLENCE IN GERMAN, Max Mailhouse; with honorable mention of Frederic P. Dewey, and Stanley Forbes.

FOR EXCELLENCE IN MATHEMATICS, Hiram A. Miller.
